

The Course at Eagle Mountain Monthly News Letter

Clubhouse

The windy-est April on record (or so it seemed) has finally blown by. We had a few Tournaments to start off the year that flew by with great success. Please check the upcoming events for May to find out when there will be activities going on at the course.

I am very excited to report that the restaurant and kitchen production is running smoothly and on schedule. It's only a few more weeks until we have full service dining at the club.

As always, if you have any questions, our membership information, schedule of events and hours of operation can be viewed on the website at

www.thecourseateaglemountain.com.

Please do not hesitate to call the Golf Shop with any questions or comments.

Head Pro/GM

The Kitchen

The restaurant construction is moving along. If you've been in the club recently you may have seen the beautiful french doors leading into the new dining room. The kitchen is progressing as well – we'll be moving equipment in soon. I'm assembling my staff and we're all excited about launching this new dining experience for TCAEM members. Watch you in boxes next week for an update and some examples of menu items we're working on.

Warren Woodbury C.E.C.
Executive Chef

From the Lounge

The bar is now offering 'Happy Hour' every Friday & Saturday from 5-7pm. \$1.50 for Domestic Beer and \$3.25 for House Wine. We are also offering light appetizers on Friday and Saturday nights during Happy Hour. Come and get your evening started with us!

When the addition to our building is finished around mid-May, we will have adequate space available wedding receptions, banquets and other events. We will have a hardwood floor great for dancing, bands and DJ events. Parties are already being booked, so contact me now to reserve the date for your event.

Jeannie
Food/Beverage Manager

Maintenance

The rain has continued and kept the course virtually under water for quite some time. On the bright side, once the warm weather and sun comes out, the course will be in great shape.

Please continue to take care of the course by repairing divots with the provided sand, repairing ball marks and respecting the cart sign rules for tee boxes and greens.

The maintenance crew and I will be punching holes in the greens again in a couple of weeks to keep them in the great shape that they are now.

Jed
Golf Course Superintendent
